

**3 step guide for
unlimited income!!**

**Transform your PayPal Account
Into a cash-making machine!**

Only 3 Simple steps!
Tried, True and Tested.

STEP 1

You need to set up your free website so that you can sell the system you just acquired. Of course, you may choose to pay for a domain name if you wish to, or if you feel that it may help you sell more.

Don't feel like you've been ripped off; many of my fellow friends who bought this Guide thought it was a scam because of how simple the steps are.

Well they are simple because the method was meant to be quick and easy.

There are many ways to set up a website on the net. Let's try with Weebly weebly.com.

No, I am not being paid by this company for advertising it, but it is just a fast and easy way to create the website you need, in order to sell the Income Method to other people. Don't worry, you won't have to do anything to sell it, it will actually sell by itself.

On Weebly you will get all the tools, resources, and step-by-step instructions, on how to get started immediately with making your website. As you can see above, the registration process is simple, and very easy. Best of all, it is FREE!

Once you are registered, you have to create your site. Start by adding a site under "My Sites" in Weebly & then you can begin to set up your new site. The reason I recommend Weebly is because it requires no knowledge of creating websites at all – all you do is drag and drop various elements to build your site, chose a design you like and publish it.

You don't need to know how to code or build a website at all. Once you have started to build your site, simply create a new page where you can expose all of the information that you can find on the site paypallauncher.com. If you are not sure what to write about the method, just copy and paste the content that you have seen on the official PayPal Launcher website. You see, you don't have to work!

Your website should only consist of two pages. The first page is the home page, which will contain all of the information people need to discover the product.

You have to write something that will make people WANT to buy the "method". Your page should have a link to your PayPal account. It's easy to get a PayPal account.

From the PayPal account registration page, select Personal or Business Account, then choose the country you live in at: www.PayPal.com

The second page on your website will contain the actual method. People should be able to access the page if they haven't paid for the IncomeMasterGuide. You Can upload the method on your website.

Your second page is available to people once you have received their payment on your PayPal account. Only then will you send them the link to your second "secret page so that they can download the method, and I'll get to that in a minute.

Remember, you will soon hit the payday, so don't give up, it's easy as 1, 2, 3!

Now, you may want to add a PayPal button to your page, so that people can pay for the income method method. First, login to your PayPal account and find the My Saved Buttons section of your profile. Check under the Merchant Services section.

The screenshot displays the 'Edit your PayPal payment button' interface. At the top, there are navigation tabs: 'My Account', 'Send Money', 'Request Money', 'Merchant Services', and 'Products & Services'. Below these are sub-tabs: 'Overview', 'Add Funds', 'Withdraw', 'History', 'Resolution Center', and 'Profile'. The main heading is 'Edit your PayPal payment button'. Below the heading, there is a note: 'PayPal payment buttons are an easy way to accept payments. Check the [Website Payments Standard Overview](#) for more information. Use this page to customize your button and create the HTML you'll need to copy and paste into your website. [Learn more](#). [Having trouble viewing this page?](#)'

The main form area is titled 'Step 1: Choose a button type and enter your payment details'. It includes a dropdown menu for 'Choose a button type' set to 'Buy Now'. A note says: 'Note: [Go to My saved buttons](#) to create a new button similar to an existing one.' Below this are fields for 'Item name' (containing 'Sample Buy Now Button') and 'Item ID (optional)'. There are also fields for 'Price' (0.01) and 'Currency' (USD), with a link 'Need multiple prices?'. A section titled 'Customize button' has three checkboxes: 'Add drop-down menu with price/option' (with an 'Example' link), 'Add drop-down menu' (with an 'Example' link), and 'Add text field' (with an 'Example' link). Below these is a link 'Customize text or appearance (optional)'. To the right is a preview window titled 'Your customer's view' showing a 'Buy Now' button with logos for MasterCard, VISA, American Express, Discover, and PayPal. Below the preview are 'Shipping' and 'Tax' sections. The 'Shipping' section has a field for 'Use specific amount' and 'USD' with a 'Help' link. The 'Tax' section has a field for 'Use tax rate' and a '%' sign. At the bottom, there is a section for 'Merchant account IDs' with a 'Learn more' link and two radio buttons: 'Use my secure merchant account ID' (selected) and 'Use my primary email address' (with a dropdown menu showing 'payment@happylittlepigs.com'). At the very bottom, there are three steps: 'Step 1: Choose a button type and enter your payment details' (active), 'Step 2: Track inventory, profit & loss (optional)', and 'Step 3: Customize advanced features (optional)'. A 'Save Changes' button is at the bottom left.

Fill out the fields to create your button; there are quite a few options to work with here, so you may need to click on the PayPal help links to find out how they all work. When you have entered your payment details, click "Create Button". When it's done, you'll get your button code, which you can insert on the main page of your site.

This is what the html code for your button looks like; you just need to copy and paste it on your page (in Weebly, just create a “custom html” text box and paste it there).

The screenshot shows the PayPal Merchant Services interface. At the top, there are navigation tabs: "My Account", "Send Money", "Request Money", "Merchant Services", and "Products & Services". Below these are sub-tabs: "Overview", "Add Funds", "Withdraw", "History", "Resolution Center", and "Profile". The main heading is "You are viewing your button code".

Instructions for using the code:

1. Click **Select Code** to select all the button code.
2. **Copy** the code (CTRL+C for Windows, CMD+C for Mac -- or right-click and choose Copy).
3. **Paste** the code into your own code (CTRL+V for Windows, CMD+V for Mac -- or right-click and choose Paste).

I have mentioned earlier that there is an alternative if you can't upload the method to your site. The way to do is to use <http://uploadnsell.com> and enter in your PayPal information there. It is very quick and easy, and best of all, it's Free!

STEP 2

Congratulations, your website is now live online, and you have to set up your two pages!

You may now proceed to step 2.

I will now discuss how to sell the method, which will not be a difficult thing to do. You will not have to ask people to buy the IncomeMasterGuide, you will not have to send e-mails and post on forums – something that I find boring & slow, but if you want to do it, you still can.

You may want to join NeoBux (<http://neobux.com>) or Clixsense (<http://clixsense.com>) in order to sell the IncomeMasterGuide. There are many advertising websites out there, but NeoBux and Clixsense are the cheapest and most effective.

This is how I have made more than \$12,000 in just a few month.

Before joining NeoBux or Clixsense you need to have few things. Most PTC site would ask you to give an e-mail address, so if you do not have one that you would like to use, sign up for a free for a new one at gmail.com.

All reputable PTC sites also pay with PayPal. It is very safe and used by thousands of people worldwide. If you do not have a PayPal account signup for one at <http://paypal.com>

Now you have everything you need to join the best PTC sites. For more information on these PTC site and for others that you can join go to <http://legitimateptcsites.com>. This site is also very helpful because it has a list of scam PTC site that you should definitely avoid.

Here is some I like and I have used a lot recently:

<http://www.ptcbox.com>

<http://www.enrichptc.com>

<http://www.bemabux.com>

They all have the same registration process. Use your one g-mail created account for all.

Getting started with NeoBux is very easy, just go to: <http://neobux.com>. You'll be at the home page of NeoBux that looks like the picture below:

At the top of the page you can see the Register button. Click on that and you'll be in the New Registration page. Now you'll have to fill out all the fields on it. After that, click the continue button. Follow the instructions on the next page to complete the registration.

The last step to complete the registration is to go to your e-mail box and open the mail sent from NeoBux, Click the activation code link sent in that e-mail. This will confirm your account. And now you're a verified member of NeoBux and you can start making money with them.

Signing up with Clixsense is very similar. Go to <http://clixsense.com> and click the Sign Up button at the top of the page. Go through the same registration process as you did for NeoBux and then you will be able to make money through Clixsense as well!

Once your accounts are ready, just log in and click on Advertising.

You have three different options to advertise your IncomeMasterGuide and get as much as \$765 per day like I managed to. First, you have to select how many clicks you want to buy and then the type of exposure on NeoBux.

I suggest you to start slow, you don't have to spend thousands to get people to discover and buy the method; just start for a simple 2500 clicks solution – it costs only \$5 – the cheapest way for sure to sell the IncomeMasterGuide. Now you may set up the advertisement with the address of the website you have created.

You also don't need to spend money out of your pocket to advertise on NeoBux or Clixsense – you can convert your balance from clicks into advertising credits. – So make sure to do this for a completely free way to start-up to make a lot of money!

When you get more cash, remember that you can advertise even more, and get **EVEN MORE** money every day without actually doing anything.

Once you're done setting up the advertisement, just relax! Go outside or do something that you haven't been doing for a while because you were so busy working.

Life is to be enjoyed! Wait and see the magic happen next time you open your PayPal account – it will blow your mind!

You're almost there – Keep reading for step 3.

STEP 3

Congratulations for beginning your first ad campaign on NeoBux or Clixsense!

You will quickly see the results of this campaign by checking in on your PayPal account and will be amazed to see your min balance growing as each day passes.

But don't stop until you get enough. If your page is good enough, you may try to sell the method on other websites. They will do the work for you while you just sit and relax watch TV or have fun with you family or kids.

Once NeoBux or Clixsense brings in enough cash to advertise more, you can try other PTC site to earn even more. You can find a list of some more sites to sign up for at <http://legitimateptc.com>.

These PTC sites will generate sales no matter what, because the market is interested in products that will generate money for them.

The sky is the limit for you, and you can sell the IncomeMasterGuide method anywhere and replicate what I have done in less than a few weeks.

Remember, once your page is ready and your ad is posted, your money will literally take-off in your PayPal account.

**GOOD LUCK WITH SELLING THE IncomeMasterGuide,
AND I WISH YOU TO HAVE AS MUCH FUN AND SUCCESS
AS I HAD WITH IT!;-)**
